

Comment from Liaison Representative H. Alexander Manuel on *Public Access to Agency Adjudicative Proceedings*
November 11, 2021

My apologies for late submissions. I just had three concepts that may or may not be helpful. One was raised by Prof. Lubbers: judicial security. I think that is an important issue. Two other points relate to confidentiality.

1. We may want to specifically mention "in camera proceedings" and "documents provided under seal."
2. Witnesses, generally, should be excluded from the courtroom prior to testifying.

Thanks,
Alex
