

Comment from Public Member Jack M. Beermann on *Early Input on Regulatory Alternatives*  
June 13, 2021

- Line 21: Insert “impact” after “economic”
- Lines 40–42: I would move the sentence from lines 40–42 to the beginning of the paragraph and then delete the word “Nevertheless” at the beginning of the next sentence:

Agencies will need to consider whether the benefits of early outreach outweigh the costs, including the resources required to conduct the outreach and any delays entailed. Seeking early input . . . .

- Line 45: Insert the following:
  1. Agencies should consider, in light of the benefits and costs of doing so, whether to seek early input concerning regulatory alternatives prior to issuing a notice of proposed rulemaking on important issues.

Then re-number all subsequent recommendations.
