

Richard Hipolit

October 24, 2017

As I had to leave today's call a little early due to another engagement, I want to share one comment on Recommendation 4 concerning sunset provisions: The discussion on page 4 notes that "it might be inappropriate for an agency to adopt a temporary rule if the rule required a very high fixed cost to comply". That seems like a fairly important consideration to me. I suggest considering adding something to that effect at the end of Recommendation 4. Thank you for the opportunity to participate.
