# Administrative Conference of the United States

My name is Angelica Figueiredo White, a minority women tech entrepreneur, inventor with more than 5 pending patents with the USPTO . You can learn more about my credentials here:

<https://www.angelicafwhite.com/bio.html>

Thank you for the opportunity to comment to a matter that is very important to me, but as well in protecting the heritage this nation, that anyone with a good idea and hard work could build a better life for themselves and their families with their inventions.

I agree with this statement *"The size of a claim has no relationship whether a small entity has millions of dollars to defend their patent rights"* I am a small entity building a very valuable technology and limiting to small claims would not protect my rights as I build this technology bootstrapped. I agree that the focus should be **Small Entities instead Small Claims.**

I further support the following arguments:

Failed Patent System:

- eBay v. MercExchange
- Patent Trial and Appeal Board (PTAB)
- Alice v. CLS Bank

Small Entities Court:

- The Focus Should be Small Entities, not Small Claims.
- It must be an Article III court, not an Administrative Tribunal
- Motion Practice Limits
- Injunction is the Default Remedy

Lack of inventor representation on the consultancy committee

I believe great ideas come from anyone and they are the universe gifts of economic empowerment of individuals and their families. We ought to protect the rights to invention, the American Dream, by the people, in this case Small Entities.

A world with fair justice, peace and equal opportunities is Sustainable. I am in business to change the world, to create better jobs for individuals and their families.

Regards,

.. . . .

Angelica F. White  
Founder & CEO of ZIPPYAR - Keep It Alive!
