Subject: Small Claims Patent Court, in ref to Administrative Conference of the United States!

I am an inventor (whom intends to apply for Patents in the future). Our current system does not allow individuals like me to defend my patent rights and benefit from my intellectual property. This is the opposite of what was intended for our US Patent System.

Rather than a small claims court, there should be a small entity court that enables a small entity to defend its patent rights. It needs the due process of an Article III Court but must be faster and less expensive.

Please do consider where WE came from AND how we Americans & would-be Citizens should be fairly treated! An individual being able to legally protect and direct Ownership of products which favorably impact mankind, should be paramount!

Appreciate your assistance in advance,
David Burchinal
