Administrative Conference,

I am an inventor with one design patent - so far. I have other ideas I wish to pursue. Our current system does not allow individuals like me to defend my patent rights and benefit from my intellectual property. This is the opposite of what was intended for our US Patent System.

Rather than a small claims court, there should be a small entity court that enables a small entity to defend its patent rights. It needs the due process of an Article III Court but must be faster and less expensive.

Please give this issue serious contemplation. It's important to people who create products that make people's lives better.

Thanks for your time.

Sincerely,

Doug Williams inventor of the KneeTee.
Mpls. MN.
