**Subject:** Independent inventors

Administrative Conference,

I am an inventor with 2 patents and a dozen published inventions.

Our current system does not allow individuals like me to defend my patent rights and benefit from my intellectual property. This is the opposite of what was intended for our US Patent System.

Independent inventors are at a terrible disadvantage versus greedy corporations with armies of lawyers.

Rather than a small claims court, there should be a small entity court that enables a small entity to defend its patent rights. It needs the due process of an Article III Court but must be faster and less expensive.

Jack Powers
