I am an inventor and small business owner with three patents. Our current system does not allow individuals like me to defend my patent rights and benefit from my intellectual property. This is the opposite of what was intended for our US Patent System. Whether large corporations' or individual patents, the individual is the core of our marvelous system.

Rather than a small claims court, there should be a small entity court that enables a small entity to defend its patent rights. It needs the due process of an Article III Court but must be faster and less expensive.

I ask for your efforts to ensure this happens.

Best regards,

Wayne Darnell
