Administrative Conference,

I am an inventor and small business owner with 11 patents. Our current system does not allow individuals like me to defend my patent rights and benefit from my intellectual property. This is the opposite of what was intended for our US Patent System.

I am in litigation with several large corporations who have filed IPR's and continue to threaten my portfolio and business.

Rather than a small claims court, there should be a small entity court that enables a small entity to defend its patent rights. It needs the due process of an Article III Court but must be faster and less expensive.

Chris Flood
