**To: ACUS Information,**

Administrative Conference,

I am an inventor (small business owner, etc.) with 4 patents (or patents applied for, intend to apply for, etc.). Our current system does not allow individuals like me to defend my patent rights and benefit from my intellectual property. This is the opposite of what was intended for our US Patent System.

Rather than a small claims court, there should be a small entity court that enables a small entity to defend its patent rights. It needs the due process of an Article III Court but must be faster and less expensive.

Best regards,

*Jack*
