Administrative Conference,

I am an inventor (small business owner, etc.) with \_\_1\_ patents (or patents applied for, intend to apply for, etc.). Our current system does not allow individuals like me to defend my patent rights and benefit from my intellectual property. This is the opposite of what was intended for our US Patent System.

Rather than a small claims court, there should be a small entity court that enables a small entity to defend its patent rights. It needs the due process of an Article III Court, but must be faster and less expensive. Please. The thought of losing my patent to someone else and not being able to afford to fight for my rights is scary, and I know that it is hampering other inventors from even trying. Thank you in advance. Ken.

Kenneth Drake
