**Subject:** Small Claims patent Court Comments.!

Administrative Conference,

I am an Inventor and I have been involved in the field of new and improved ideas for some decades, as well I am an small business owner; I have some patents and with some others PPAs ( Patent Pending Application) currently. Our Patent system born with the idea to protect all types of individual's intellectual property and have benefits from it; We need to fight and be sure those protections should keep strong till today's for the wellness of our own Country, fellow citizens, families and our future generations which eventually will take and be in charge of this Great Nation.!!!

Rather than a small claims court, there should be a small entity court that enables a small entity to defend its patent rights. It needs the due process of an Article III Court that has to be less expensive.!

Best Regards, Luis A. Millan
