Administrative Conference,

I am an independent inventor with 4 issued patents (3 active). I have had to defend these patents twice in the marketplace.

Our current system has no recourse for individuals like me to defend our patent rights and thereby benefit from our intellectual property. We desperately need a small entity court that enables a small entity to defend its patent rights. It needs the due process of an Article III Court but must be faster and less expensive.

Please keep these comments in mind as you look to solve current patent problems for small entities.

Thank you,
Valerie Heilbron
